Press Release!!!

Following the successful launch of Umbrella Training & Consulting at Sugar Reef last November, Ryan Fox, is delighted to announce his inclusion on the management team for Nexus Revolution Ltd here in the UK.

“Being part of Nexus’ management team fits well with my continued role as Managing Director of Umbrella. The opportunity to grow both businesses in tandem will service the hair and beauty industry more effectively. They compliment perfectly.” **Ryan Fox, Managing Director, Umbrella Training & Consulting**

This marks the next phase in Ryan’s strategy for Umbrella. “I always recognised the need for the services Nexus provide, which is why I desired working with them from the start. Having now introduced these services to a number of salons myself has proved to me the power of the Nexus methodologies, developed and tested over 12 years.”

“Ryan introduced me to the Nexus systems as a way of further improving my business. Since taking on the services I’m much more organised and focused. Nexus has given me the tools to enable me to take my business to the next level.”

Karine Jackson, BHA London Hairdresser of the Year.

Adoption of Nexus systems will assist Umbrella’s longer term goal to bring like minded salons together for benchmarking and best practice sessions through the **British Hairdressing Business Forum**. “Lots of interest in the Forum followed the launch but it quickly became clear many salons were not at a stage with their management reporting to provide information at the touch of a button. We realised what most needed first was the services provided by Nexus to address this.”

In the UK the Nexus Revolution management team includes: Wayne Kranz, Managing Director, Ryan Fox and Mark Wilson, Business Development Managers.

“Attracting the calibre of Ryan and Mark to be a part of Nexus is testament to how evident the strength our proven salon systems are in their potential to affect a positive impact on clients businesses.” **Wayne Kranz, Managing Director, Nexus Revolution Ltd**
